

AVIATION FUEL

Location Guide – Australia 2012

www.shell.com.au/aviation

PRODUCTS AND SERVICES

INTO-PLANE SERVICE

Availability

Into-Plane service is available at days and times listed in the schedule.

Call Out Fees

Call Out Fees are normally charged for out of hours service. Where out of hours service is required, we recommend pilots phone ahead to confirm fuel availability and the Call Out Fee applicable. Shell does not accept any liability for changes to information contained herein.

SELF-SERVE FUEL OUTLETS

Shell Aviation offers customers the convenience of swipe card bowzers at selected locations throughout Australia. These locations have a 24hr self service outlet icon listed in the 'Fuel and Delivery Method' column in the schedule.

AEROSHELL OILS

Most grades are available from Shell resellers at major airports on demand. They can also purchased at other airports by prior arrangement.

CARDS ACCEPTED FOR PAYMENT

Whenever you fly, you'll find that Shell Aviation Outlets accept the Shell Aviation Carnet Card which makes flying even more flexible. Most Shell Aviation Outlets throughout Australia also accept major Credit and Debit Cards.

Fuel & Fly

Carnet

Mastercard

Visa Card

PLEASE NOTE: All information and location details are correct as at October 2012. The Shell Company of Australia cannot accept liability for any error or omission.

The Shell Company of Australia Limited ABN 46 004 610.

AeroShell

Confidence, Global Technical Leadership, Innovation.

It has been upon these foundations that the most trusted and widely used brand of aviation lubricants has been built.

Since the 1920's, aviators have recognised AeroShell as "The lifeblood of flight."

www.shell.com.au/aeroshell

AeroShell Oil Sport PLUS 2 is available from Shell Distributors at the following sites.

Shell VIP JET

IT MAY LOOK GOOD ON THE GROUND...

... but better in the air, and Shell VIP JET can help get you flying quickly.

Shell VIP JET refuelling has a direct phone line to a dedicated Shell refueller based at Sydney, Brisbane and Perth.

This unique service is designed for fixed and rotary wing corporate and business aircraft, so time wasted waiting for fuel tankers can now be spent in the air, reducing transit times and operation costs.

Shell VIP JET can rapidly supply either Shell Jet A1 and Shell Aerojet (with FSII) to your aircraft. And for your convenience offer a forward booking service and easy payment with Shell Aviation Fuel Cards or major credit cards.

Call 1300 VIP JET (847 538) to have a tanker at your service.

For a trouble free flight, we recommend taking one capsule before take off.

The thought of how dangerous undissolved water in jet fuel can be, is enough to unsettle anyone's stomach.

So it'll come as a relief to know that there's a quick, easy and affordable way to make sure your fuel is water free – the Shell Water Detector.

It's the aviation industry's test system of choice, employed over 8 million times a year around the world. Using a syringe fitted with a Shell Water Detector capsule,

it only takes a matter of moments to check the fuel at any stage of your delivery system.

And these capsules are probably the most cost-effective safety measure you'll ever introduce.

For more information, or to place an order, contact:

Remote refuelling made easier.

Shell Aviation fuel is now available via upgraded Outdoor Payment Terminals at various sites across Australia. This enables refuelling at unmanned airports and airfields chargeable to your credit card, debit card, Shell Carnet or Shell Fuel & Fly Card. So whilst you may be miles from anywhere, Shell Aviation is providing a 24 hours a day, 7 days a week refuelling service to get you home and beyond. For a full list of airports go to:

www.shell.com.au/airports

PIN required for all Bank Debit/Credit Card transactions

NOTES

Notes

First Aid for Jet A1 and Avgas

SWALLOWED

If swallowed, do NOT induce vomiting, give a glass of water and seek medical advice.

EYE CONTACT

Flood eyes with plenty of water for 20 minutes. If irritation occurs seek medical advice.

SKIN CONTACT

Remove contaminated clothing and wash skin thoroughly with soap and water.

INHALATION

Remove affected person from contaminated area and seek medical advice. If not breathing apply artificial respiration and seek urgent medical advice.
