No delay or omission on the part of either party hereto to exercise any right or remedy under any Purchase Contract will be construed or operated as a waiver thereof nor will any single or partial exercise of any right or remedy as the case may be. (b) *Quantity.* Contractor will deliver Goods in the quantity agreed in the Purchase Contract or to the extent not specified, in the quantity communicated by Company from time to time. If Goods are delivered to Company in excess of the quantities ordered, Company will not be bound to pay for the excess and any excess will be and will remain at Contractor's risk and will be returnable to Contractor at Contractor's expense.

(c) *Delivery Point/Delivery Dates.* Contractor will deliver the Goods to Company or its nominee and on the Delivery Dates, times and at the Delivery Points specified in the Purchase Contract for the Goods, or if not specified, as communicated by Company from time to time. (d) *Risk of Loss/Transfer of Title.* Contractor will retain risk of loss of and damage to Goods until Company takes physical possession, care and custody of the Goods, or, if an Incoterm is specified for the delivery of the Goods, until delivery to Company is complete in accordance with the Incoterm. Notwithstanding the foregoing, Contractor will retain risk of loss of and damage to Goods: (i) supplied as part of Services until acceptance of the Services by Company, unless

Company takes care and custody of the Goods and (ii) which are rejected by Company as not in compliance with the Purchase Contract. Title to Goods will pass to Company (i) along with the passing of risk of loss of and damage to Goods to Company or (ii) as Company makes payment for the Goods, whichever occurs earlier. Where Company makes milestone payments, title to Goods to which the payments apply will proportionally pass to Company. Any transfer of title or risk will be without prejudice to Company's right to refuse to accept the Goods in case of non-conformity with the requirements of the Purchase Contract.

(e) *Manufacturing Locations.* There will be no deviation from named manufacturers, manufacturing locations or countries of origin specified in the Purchase Contract, except with Company's prior written consent.

Contractor represents that, on delivery to Company, the Goods have been accurately reported, described, classified, packed, marked and labelled, all in accordance with the Purchase Contract, all Applicable Laws and, except as otherwise specified in the Purchase Contract, Standards of Practice. Contractor will remove and dispose of any waste packaging materials as instructed by Company, and any waste or debris related to the supply of Goods. Contractor will retain title to packaging materials unless Company expressly elects to take ownership of such packaging materials.

(g) *Samples.* Contractor will take and retain samples of Goods supplied in accordance with the Purchase Contract, all Applicable Laws and, except as otherwise specified in the Purchase Contract, Standards of Practice. In the event of any complaint about the quality of Goods supplied to Company being communicated to Contractor by Company, Contractor will undertake sample analysis and make available such samples to Company.

(h) *Measurement.* Contractor will measure Goods delivered to Company in accordance with the Purchase Contract, all Applicable Laws and, except as otherwise specified in the Purchase Contract, Standards of Practice. Contractor will deliver records relating to measurement of Goods to Company on delivery of the Goods and at the reasonable request of Company.

(i) *Deterioration.* If Goods are perishable or have a life expectancy of a fixed duration or if there are circumstances known to Contractor that would adversely affect the life span of the Goods, Contractor will promptly advise Company in writing of all such necessary and appropriate information relating thereto that will form part of the description of the Goods, provided always that Contractor will deliver to Company Goods that have a reasonable life expectancy having regard to intended use or such minimum life expectancy as may be specified by Company in the Purchase Contract.

(j) *Compliance and Hazardous Goods.* Contractor will ensure that Goods will comply with the requirements of Applicable Laws and to the extent that they contain toxic, corrosive or hazardous materials, advise Company of any hazard inherent in the Goods. Contractor will ensure that a proper notice accompanies each delivery of Goods providing information in respect of safety, environment and health hazards, including toxicity, flammability, reactivity and corrosiveness,

together with handling and storage requirements, action to be taken in case of fire or spillage, and health precautions to be observed.

- (vii) properly remove and dispose of all waste and debris related to Services in accordance with Applicable Laws and Standards of Practice and maintain Company Group Worksites where Services are performed at all times in a reasonably clean, tidy and safe condition;
- (viii) pay all its Subcontractors in a timely manner;
- (ix) keep accurate Books and Records.

(b) *Risk.* Contractor will bear risk of loss of and damage to property owned or leased by Company Group when such property is in the care, custody or control of Contractor Group for Services.

(c) *Company Group Worksite Cooperation.* Contractor will supply Services without unreasonably interfering with the operations of Company Group and of other contractors at the Company Group Worksite, and will take, and cause Contractor Personnel to take, all necessary precautions (including those required by Company's HSSE Standards) to protect the Company Group Worksite and all persons and property thereon from damage or injury. Contractor will permit reasonable access and opportunity for the performance of work by other contractors and will cooperate with them.

(d) *Contractor Personnel.* Contractor will only use Contractor Personnel who are properly permitted, qualified, suitably trained, competent, skilled and experienced in accordance with good industry practice and as required by the Purchase Contract. Contractor is responsible for Contractor Personnel, including the direction, transport, housing, maintenance, payment, board and lodging of the personnel. Contractor will verify all relevant qualifications and experience of Contractor Personnel, including all requirements of Applicable Laws and the Purchase Contract and will perform security background checks where required by Company. Key Personnel engaged in the performance of Services will be as set out in the Purchase Contract or other written communication

provided by Company to Contractor. Such Key Personnel will not be withdrawn or replaced without the consent of Company, not to be unreasonably withheld.

2.4 Access to Company Systems, Information, Worksites or Infrastructure

In the event that supply of Scope requires Contractor and/or Contractor Personnel to access Company's and/or any of Company Group's technical information, information technology resources (including, but not limited to, Company's infrastructure), or Worksites, Contractor will comply with, and be bound to, the Company's standard terms and conditions of access and security, as set out in Appendix II, unless the parties have agreed to other terms of access in writing.

2.5 Supplier Qualifications

Contractor will, at its cost and expense, ensure it is qualified pursuant to Company's applicable supplier standards and is registered in Company's supplier qualification systems. Contractor will ensure such qualifications and registrations are maintained and are properly updated.

ARTICLE 3 – SUBCONTRACTING

3.1 Subcontracting Approval

Contractor will not Subcontract any portion of Scope without the prior written consent of Company, not to be unreasonably withheld, provided that Contractor may, without consent, Subcontract with its Affiliates and with its usual suppliers of goods and materials unless otherwise specified in the Purchase Contract. Contractor will not Subcontract the whole of the Scope.

3.2 Pre-approved Subcontractors

As specified in the Purchase Contract, Contractor will use Subcontractors that have received the prior approval of Company or that Contractor has selected from a pre-approved list of Subcontractors provided to it from time to time by Company.

3.3 Responsible for Subcontracts

Notwithstanding the use of a Subcontractor by Contractor for any portion of Scope, no Subcontract will bind nor is intended to bind Company, and each Subcontract will name Contractor as the contracting party in Contractor's own right and not as an agent of Company. Contractor will be fully liable to Company for the Subcontracts, the complete performance of all Scope that is supplied by a Subcontractor, and further, Contractor will fully perform and discharge all obligations it may have pursuant to its Subcontract with each Subcontractor. Contractor is solely liable for managing its Subcontracts and for any liability arising under such Subcontracts, including any liability arising in connection with Company's exercise of any rights and remedies under the Purchase Contract. Contractor will be responsible for all work, and acts, omissions and defaults of any Subcontractor and all Contractor Personnel as fully as if they were the work, acts, omissions or defaults of Contractor hereunder. Contractor will indemnify and hold harmless Company Group against all claims, losses, damages, costs (including reasonable legal fees), expenses and liabilities suffered or incurred by Company Group as a result of Contractor's use of Subcontracts for the supply of Scope.

3.4 Assignment

Contractor will use reasonable efforts to ensure that Subcontracts will be on terms and conditions in all material respects consistent with the terms and conditions of the Purchase Contract. Contractor will ensure that it has the right under material Subcontracts to assign the Subcontracts, in whole and in part, to Company or Company's nominee, which assignment can be effected upon the delivery of notice by Company to the Subcontractor and without the requirement of any further consideration or variance of the terms and conditions of Subcontracts. In respect of Scope supplied by any Subcontractor, if such Subcontractor has undertaken towards Contractor any continuing obligation, Contractor will, at the completion of the Scope, notify Company of the continuing obligation and, at the request of Company, will assign to Company the benefit of that obligation for its unexpired duration.

3.5 Framework Agreements

(a) *Framework Agreements.* Company or an Affiliate of Company has framework agreements, usually known as enterprise framework agreements (each a Framework Agreement), in place with third party contractors, which permit Contractor to call off Subcontracts (each a FA Subcontract) pursuant to the relevant Framework Agreement directly with such third party contractors or their Affiliates.

(b) *Subcontracts.* Contractor will in its own name and capacity enter into FA Subcontracts: (i) for the part of the Scope (ii) with the applicable third party contractors or their Affiliates and (iii) pursuant to the applicable FAs, all as specified in the Purchase Contract. Contractor will be solely responsible for entering into FA Subcontracts in a timely manner as required to complete and perform the Scope in accordance with the Purchase Contract.

(c) *Performance.* Contractor will promptly notify and, as requested by Company, inform Company if Contractor, in its reasonable opinion will be unable to discharge its obligation to perform and complete any portion of the Scope in accordance with the Purchase Contract due to Contractor's obligations under Article 3.5(b).

(d) *Discharge.* Contractor's obligation to enter into a FA Subcontract will be discharged upon the entering into of the FA Subcontract in the first instance. Nothing in this Article 3.5 will be construed as impairing Contractor's rights under a FA Subcontract, including with respect to termination. In the event of a failure to enter into a FA Subcontract (in a timely manner or at all) or termination of a FA Subcontract, Contractor remains solely responsible for performing and completing the Scope in accordance with the Purchase Contract, including the part of the Scope affected by the relevant prospective or terminated FA Subcontract, as the case may be.

(e) *Regular Subcontracts.* FA Subcontracts are and will be deemed to be regular Subcontracts of Contractor. Notwithstanding anything that may be construed to the contrary, Contractor will have no claim, right or defense against Company or any Affiliate of Company (including for an increase in the Purchase Contract Price, an extension of time or any other compensation or relief) in respect of or in connection with FA Subcontracts, including the negotiation of FA Subcontracts, any failure to enter into FA Subcontracts (in a timely manner or at all), any of the terms and conditions of FA

Subcontracts, termination of FA Subcontracts, or failure by the third party contractor or its Affiliates and subcontractors to perform under FA Subcontracts.

ARTICLE 4 – VARIATIONS AND SUSPENSION

4.1 Variations

(a) *Variation Orders.* Contractor will not perform a Variation except pursuant to a Variation Order. Upon receipt of a Variation Order, Contractor will promptly take such steps as are necessary to ensure that the supply of Scope under the Purchase Contract is amended to bring Scope into compliance with the Variation Order.

(b) *Information for a Variation.* At Company’s reasonable request, Contractor will promptly provide Company with a written and detailed opinion of the effect, if any, of a requested Variation including on pricing and/or the Scope schedule (including Delivery Dates).

(c) *Delayed Agreement.* Contractor will not unreasonably withhold or delay agreement on a Variation Order. If Company and Contractor do not promptly reach agreement on the effects of a requested Variation, Company may issue an interim Variation Order and Contractor will at Company’s request nevertheless promptly proceed with performing the Variation within the reasonable capabilities and resources of Contractor Group as required by the interim Variation Order pending agreement on the effects. Once such effects are agreed or settled by dispute resolution, the interim Variation Order will be replaced by the agreed Variation Order.

(d) *Scope Corrections.* Where (i) a change in Applicable Laws or (ii) insufficiencies, errors or inconsistencies in the Scope or in technical or other information provided to Contractor by Company or Company Worksite conditions (collectively the “**Scope Corrections**”) may require a Variation in the opinion of Contractor, Contractor will promptly issue to Company a written and detailed notice of the effect, if any, of the potential Variation, including on pricing and the Scope schedule and Company will issue an appropriate Variation Order. However, to the extent Scope Corrections were known or should reasonably have been known or identified by Contractor in entering into the Purchase Contract including through the exercise of reasonable due diligence by Contractor and Standards of Practice, Company may issue a Variation Order for the Scope Corrections and Contractor will not be entitled to any price or schedule adjustment or to other compensation or relief for the applicable Variation.

(e) *Company Obligations.* Where a failure of Company to discharge its obligations under the Purchase Contract may require a Variation, Contractor will promptly issue to Company a written and detailed notice of the effect, if any, of the potential Variation including on pricing and the Scope schedule and Company will issue an appropriate Variation Order.

(f) *Price/Schedule Adjustment.* Contractor will use reasonable efforts to minimize the costs and schedule impact of a Variation on Company for any Variations Order and its implementation. For a Variation materially affecting Scope, pricing in the Variation Order is to be adjusted upwards or downwards using the appropriate rates and prices included in the Purchase Contract, or where there are no such rates and prices, a fair and reasonable adjustment is to be made and the Scope schedule adjusted as necessary.

(g) *Compliance Requirements.* Notwithstanding the foregoing, Contractor will perform any Variation resulting from or required by a Compliance Requirement and Contractor will not be entitled to any price and schedule adjustment or to other compensation or relief for Variations resulting from or required by a Compliance Requirement.

4.2 Suspension by Company

(a) *Suspension Right.* Company may at any time, on written notice, suspend supply of all or any portion of Scope under the Purchase Contract. Upon receipt of such notice, Contractor will promptly discontinue supply of Scope as detailed in the notice of suspension and will properly protect and secure Scope. Any invoices due to be paid will remain due and payable during such a suspension. Contractor will promptly at Company's request issue to Company a written and detailed notice of the effect, if any, of the suspension including on pricing and the Scope schedule. Company may at any time withdraw by written notice all or part of a suspension and, upon receipt of such notice Contractor will promptly resume and diligently continue supply of Scope for which the suspension was withdrawn.

(b) *Costs of Suspension.* Unless the suspension is due to a Compliance Requirement, the parties will treat the suspension as an interim Variation Order under Article 4.1. Where the suspension is due to a Compliance Requirement, Contractor will not be entitled to any price and/or schedule adjustment or to other compensation or relief for the suspension.

(c) *Termination for lengthy suspension.* If the duration of a suspension of a material portion of the Scope by Company other than due to a Compliance Requirement exceeds ninety (90) consecutive calendar days or one hundred and eighty (180) days in the aggregate (and without a Variation Order for the suspension), Contractor may, on reasonable prior notice of not less than seven (7) days, terminate the Purchase Contract on further notice with respect to the affected Scope if the suspension is not withdrawn. In the event of termination of Scope, the Company will be liable for payment to Contractor in accordance with Article 18.2 – Termination for Convenience for the affected Scope.

ARTICLE 5 – INSPECTIONS, TESTING AND ACCEPTANCE

5.1 Inspections and Testing

(a) *Contractor to Inspect and Test.* Contractor will perform all tests and inspections required by the Purchase Contract, Applicable Laws and except as otherwise specified in the Purchase Contract, Standards of Practice, to confirm compliance of Scope with the Purchase Contract. Contractor will deliver documents and information relating to such tests and inspections to Company at the request of Company. Contractor will also ensure that Company or its nominee has reasonable opportunity to properly inspect Scope and witness testing of Scope at reasonable times.

(b) *Duties/Costs.* The duties, liabilities and obligations of Contractor will survive and will not be limited or waived (whether at law or equity) by Company's review of, or approval of any portion of Scope or any inspections or testing. Contractor and Company will each bear its own costs incurred for conducting tests and inspections.

(c) *Progress Inspections.* Contractor will permit Company to view the state and progress of Scope at Company's reasonable request and Contractor will provide adequate, safe and proper facilities for such inspection. Contractor will ensure both Contractor and Company have the right to inspect Scope and the fabrication of any equipment and materials for Scope at reasonable times. If any government agency conducts an inspection, Contractor will cooperate with the government agency and immediately notify Company.

5.2 Acceptance

(a) *Notice of Completion.* When Contractor considers the supply of Scope to be complete in accordance with the Purchase Contract (including all testing and inspections), Contractor will notify Company in writing and will request that Company accept such Scope. Where Scope is the supply of Goods without Services, Contractor is deemed to have requested that Company accept such Scope upon completion of delivery of the Goods.

(b) *Acceptance/Deemed Acceptance.* Company will not be obligated to accept any Scope and may reject any Scope (or portion thereof) that is not in accordance with the requirements of the Purchase Contract, provided Company will not unreasonably withhold or delay acceptance. Any acceptance by Company of Scope or any portion of Scope will not be effective under the Purchase Contract unless the acceptance is in writing, provided that Scope will nevertheless be deemed accepted (i) once the Scope is put into commercial use by Company Group or (ii) if Company has had a reasonable opportunity to inspect Scope and has not either accepted or in writing rejected the Scope within thirty (30) days of Contractor's request to accept the Scope. Payment for the whole or any portion of Scope will not constitute acceptance. Where Company accepts Scope based on certain conditions or assurances, Company may revoke acceptance if the conditions or assurances are not met or realized in a timely manner.

(c) *Obligations not Affected.* Except as specifically provided in the Purchase Contract, the duties, liabilities and obligations of Contractor under the Purchase Contract, including Article 6 (warranties) will survive and will not be limited or waived (whether at law or equity) by Company's acceptance of Scope. In case of a rejection by Company to receive or retain Scope, or a justified revocation of acceptance, Company will continue to be entitled to specific performance of the supply of the Scope in accordance with the Purchase Contract.

ARTICLE 6 – WARRANTIES

6.1 Goods Warranty

(a) *Goods Warranty.* Contractor warrants to Company that Goods will:

- (i) be without fault, defect or deficiency;
- (ii) be new on delivery, unless specified otherwise in the Purchase Contract;
- (iii) be fit for use for any purpose specified in the Purchase Contract; and
- (iv) be in strict conformance with the Purchase Contract and any specification, drawing or other description supplied by Company to Contractor and agreed to as part of the Purchase Contract.

(b) *Warranty Period.* Contractor's warranty for Goods will apply for a period of eighteen (18) months following Company's acceptance of the Goods. If any failure of the Goods to meet the warranty is discovered prior to the expiration of the warranty period and Contractor is notified thereof, Contractor will at its sole risk and cost promptly perform all Remedial Actions.

6.2 Services Warranty

(a) *Services Warranty.* Contractor warrants that all Services will be performed in accordance with the Purchase Contract, be fit for use for any purpose specified in the Purchase Contract and be free from defect and deficiency.

(b) *Warranty Period.* Contractor's warranty for Services will apply for a period of eighteen (18) months following Company's acceptance of the Services. If any failure of the Services to meet the warranty is discovered prior to the expiration of the warranty period and Contractor is notified thereof, Contractor will at its sole risk and cost promptly perform all Remedial Actions.

6.3 Remedial Actions

(a) *Remedial Plan.* Contractor will inform Company within five (5) working days of receipt of a notice of warranty breach from Company of its planned Remedial Actions and the time schedule for completion of such actions.

(b) *Performance by Company/Others.* If circumstances such as emergency situations, avoidance of substantial harm or loss, or HSSE risk require the immediate performance of Remedial Actions, Company may undertake itself to perform or have others perform some or all of the Remedial Actions. In such circumstances, Contractor is liable to and will promptly refund Company for all costs incurred for work Contractor would have been liable for under the warranty. Notwithstanding the foregoing, if Contractor does not promptly commence to fulfil and thereafter diligently fulfil its warranty obligations in a timely manner, Company will be entitled, on reasonable notice to Contractor, without prejudice to other remedies available to it, to have all Remedial Actions done by any means of Company's choice including the engagement of and procurement from third parties and Contractor will be liable to and will promptly refund Company for all costs incurred for work that Contractor would have been liable for under the warranty.

(c) *Disputes.* Company may, at its option, directly undertake any work that is not the responsibility of Contractor. In the event of a dispute as to whether Remedial Actions are to be performed, at Company's request Contractor will nevertheless perform the work on the basis that Contractor will be compensated under an appropriate Variation Order to the extent work is found not to be a Remedial Action (i.e. the work is not covered by warranty).

6.4 Warranty Limitations

(a) *Limitations.* The warranties in this Article will not apply to or include (i) the effects of improper operation, improper handling, accidents, improper storage, improper use, improper maintenance or repair, in each case not attributable to Contractor Group or licensee and provided Contractor has furnished Company with all information reasonably required to properly use, handle, store, maintain, repair and operate; (ii) the effects of normal wear and tear that does not affect operation or use; (iii)

replacement of consumables after consumption (iv) normal maintenance services or adjustments except as performed or required as part of Scope.

(b) *Inspection.* Contractor will not be relieved of its warranty obligations herein because Contractor's engineering designs, specifications, drawings, calculations or other documents have been reviewed, commented upon or approved by Company or its representatives or because Scope has been accepted, inspected, tested or approved by Company or its representatives.

(c) *Access Costs.* Contractor will not be responsible for providing working access to Scope to remedy a defect in the Scope, such as disassembly and re-assembly of equipment not supplied by Contractor as part of the Scope, which will be at Company's expense. Contractor will be responsible for working access in connection with Scope, such as disassembly and re-assembly of equipment supplied by Contractor as part of the Scope. Company may, at its option, directly undertake any work that is not the responsibility of Contractor.

(d) *Off-shore Transportation.* Unless otherwise specified in the Purchase Contract, Contractor will not be responsible for cost and expenses of moving any defective Goods from an offshore site and the transportation thereof to Contractor's selected onshore location for repair or replacement. Unless otherwise specified in the Purchase Contract, Contractor will not be responsible for the cost of offshore heavy lifting operations, board and lodging offshore, transport to, from and at the offshore location, work at or below the waterline and diving support which will be at Company's expense. Contractor will be responsible for all costs of returning the repaired or replacement Goods to Company's Worksite or agreed onshore location, where Company's Worksite is offshore.

6.5 Extensions/Assignment

(a) *Extensions.* The warranty periods for Scope will be extended by the period(s) equal to the time(s) elapsing between the date when the warranty breach first became evident (which date will be notified by Company to Contractor in writing) and the date on which such warranty breach has been finally rectified.

(b) *Assignment.* All warranties offered by Contractor are assignable and will extend to any and all assignees and successors of Company and to Company Group. Without limiting Contractor's warranties hereunder, Contractor will assign to Company the benefit of all warranties provided by its Subcontractors including all manufacturers' warranties, and if Contractor is unable to assign such warranties, it will at Company's request pursue related warranty claims for Company Group's benefit.

6.6 Warranty Exclusivity

Following acceptance by Company of Scope, the warranties set out in this Article 6 are in lieu of all other warranties expressed or implied by statute, common law, custom, usage or otherwise in respect of such Scope.

ARTICLE 7 – PRICES AND PAYMENT

7.1 **Prices**

In consideration of the supply and completion of the whole of the Scope in accordance with the terms of the Purchase Contract, Company will pay, or cause to be paid, to Contractor the Contract Price. Prices in the Purchase Contract are all-inclusive (save for value-added tax) and are deemed to compensate Contractor for completion of Scope in accordance with the Purchase Contract, except only where the Purchase Contract specifies a cost as being for Company's account. Unless otherwise specified in the Purchase Contract, prices will be calculated in the currency requested by Company.

7.2 **Invoicing and Payment**

(a) *Invoicing.* Except as otherwise specified in the Purchase Contract, Contractor will not deliver an invoice to Company for Scope until acceptance by Company of such Scope as agreed in the Purchase Contract. If Company uses ERS, Contractor will, if requested by Company, notify Company of completion of Scope under the Purchase Contract through "Self Billing" in Company's ERS system as required by Company. Otherwise, Contractor will invoice Company (electronically where available) in accordance with Company's reasonable requirements. Contractor will be responsible for arranging foreign exchange clearance and for meeting costs in the country to which funds are being remitted. Company may execute any reasonable payment instructions, but reserves the right to charge Contractor for complying with such instructions.

(b) *Payment.* Company will pay Contractor within sixty (60) days of receipt by Company of a properly prepared and adequately supported invoice. Where payment is made by electronic funds transfer, payment is considered to have been made as soon as the due payment has been transferred from Company to Contractor's account. Company will pay Contractor in accordance with the method, prices, and in the currency specified in the Purchase Contract, or as reasonably directed by Company if not specified.

7.3 **Reimbursement**

Company reserves the right to claim reimbursement for overpayments, including those resulting from any invoicing errors, including clerical error, unsupported invoice charges, Company payment errors and credits due to Company. An invoice charge will be considered unsupported if an audit would not or cannot verify the charge's legitimacy. Any payment of Company is not to be taken as evidence that Scope has been supplied in accordance with the Purchase Contract.

7.4 **Set-off**

Company may, on notice to Contractor, set off any liability of Contractor to Company against any liability of Company to Contractor whether arising in connection with the Purchase Contract or any other agreement between the parties and may for such purpose convert or exchange any currency using reputable exchange rate references. Any exercise by Company of its rights under this provision will be without prejudice to any other rights or remedies available to Company.

7.5 **Security and Bonds**

If at any time the ability of Contractor to perform its obligations under the Purchase Contract should in the reasonable opinion of Company become impaired, or if Company makes prepayments or milestone payments prior to supply of Scope for which the payments reasonably relate, then at Company's request, Contractor will promptly provide to Company security of an amount and type satisfactory to Company. Company may on notice withhold any payment to Contractor until it receives such security. At Company's request, Contractor will provide an irrevocable performance bond or guarantee, drawn on a first class bank, and/or a parent company guarantee to assure the due performance of the Purchase Contract. The bond, guarantee or parent company guarantee when required will be provided at Contractor's cost unless otherwise agreed and will be in a form in accordance with Company's usual requirements, unless otherwise stipulated by Applicable Laws.

7.6 Disputes

Company will be obligated to pay only the undisputed part of a disputed invoice. If any other dispute connected with the Purchase Contract exists between the parties, Company may, on notice, withhold from any money that becomes payable either the equivalent of Company's estimated values of the portion of Scope that is under dispute or the amount that is the subject of the dispute. If Company notifies Contractor that it disputes part of an invoice, Contractor will, on request by Company, re-issue two invoices, one for the disputed amount and one for the undisputed amount. On settlement of any dispute, Contractor will, if applicable, submit an invoice for sums due and Company will make the appropriate payment. Neither the presentation nor payment nor non-payment of an individual invoice will constitute a settlement of a dispute, an accord and satisfaction, a remedy of account stated or otherwise waive or affect the rights of the parties hereunder. Company may correct or modify any sum previously paid if such sum was incorrect or was not properly payable to Contractor.

ARTICLE 8 – TAXATION

8.1 Contractor Taxes

Contractor will, in accordance with Applicable Laws, except as may otherwise be specifically provided in the Purchase Contract, be responsible for:

- (a) the payment of all taxes, duties, levies, charges, surcharges, withholdings and contributions and any interest, fines or penalties thereon for which Contractor is liable imposed by any governmental or other competent authority in the country where Scope is supplied or any other country, relating to or calculated by reference to the income, profits, assumed profits, capital gains, turnover, or the supply of goods and services arising directly or indirectly from the supply of Scope;
- (b) the payment of all taxes, withholdings, deductions, contributions and other types of levies in the nature of social security and insurance and unemployment and similar payments and any interest, fines or penalties thereon in respect of wages, salaries and all other remuneration or compensation paid directly or indirectly to Contractor Personnel in the performance of the Purchase Contract in the country where Scope is supplied or any other country that are assessed or levied on Contractor or are assumed by Contractor;

(c) the payment of all import, export, customs, stamp and excise duties, taxes, levies and charges, including clearing and brokerage charges and any interest, fines and penalties thereon, assessed, charged or levied by any governmental or competent authority in respect of the import or the export of property of Contractor or Contractor Personnel directly or indirectly related to the performance of Scope; and

(d) ensuring that any Subcontract has terms and conditions similar to those contained in this Article 8.

8.2 Indirect Tax

To the extent that payments to be made under the Purchase Contract are subject to value added tax, goods and services tax, sales tax or a similar levy chargeable upon the supply of goods and services, the appropriate amount of such tax will be shown as a separate item on the invoice and will be added to the price for Scope and Company will pay such amount. Company will not be responsible for any such taxes that relate to purchases by Contractor or Subcontractors or its other suppliers. Where legally possible, Contractor will apply a tax exemption, zero percent (0%) rate, or any other tax facility applicable in the relevant country. Company will provide such documentation as Contractor may reasonably request to assist Contractor in applying for any such tax exemption, zero percent (0%) rate, or any other tax facility. Contractor will provide such documentation and such other evidence as is necessary for Company to claim any relevant credit for such taxes.

8.3 Withholding

Where, under the provisions of any Applicable Laws, Company is required to deduct or withhold any amount, whether as tax or howsoever called, Company will deduct or withhold the specified amount or rate from any amount payable to Contractor. Company will pay over or deal with any amount so deducted or withheld in accordance with the provisions of the Applicable Laws providing for the deductions. Where Company makes any such deduction or withholding, Company will in a timely manner provide Contractor with official written receipts or other evidence in respect of such deduction or withholding. If Company does not provide such receipt or evidence and Contractor is required to pay such tax, Company will reimburse Contractor such amounts on demand. Where Contractor demonstrates that it is exempted from any statutory deductions, it will inform Company and provide Company with a valid certificate of exemption or immunity from the relevant authority to support its case. Company may act on the information given at its discretion and will not be liable to Contractor or any other person or body if Company applies the statutory deduction according to the Applicable Laws.

8.4 Indemnity

Contractor will be responsible for and will release, indemnify, defend and hold harmless the Company Group against all taxes, duties, levies, charges, contributions of the types referred to in this Article 8 and any claims, demands, expenses (including legal costs), interest, penalties or fines incurred in connection therewith, for which Contractor, its Subcontractors or any person employed or engaged by Contractor or its Subcontractors are liable in connection with the supply of Scope. If Company Group is required to pay any taxes, duties, levies, charges, contributions of the types referred to in this Article 8 and any claims, demands, expenses (including legal costs), interest, penalties or fines incurred in connection therewith, whether with respect to Contractor, any

Subcontractor or any other person employed or engaged by Contractor or its Subcontractors in connection with Scope, Company may recover from Contractor any such sums and all costs incurred in connection therewith.

8.5 Concessions

To the extent permitted by Applicable Laws, Company will make available to Contractor all concessions enjoyed by or available to Company in respect of customs and excise duties, taxes and charges, including clearing and brokerage charges, paid or payable for or in respect of import or export in respect of property of Contractor or Contractor Personnel in connection with Scope.

8.6 Social security charges

Contractor assumes full liability for payment of all social security charges, contributions taxes and related interests and penalties levied at any time in respect of any Personnel. Without prejudice to the provisions stated below in this Article, Company may deduct from the Contract Price any of said social security charges, contributions, taxes and related interests and penalties for which Company is jointly and severally liable under the Wages and Salaries Tax and Social Security Contributions [Liability of Subcontractors] Act ("Wet Ketenaansprakelijkheid") or under any other regulations and pay the amounts in question into a so-called guarantee account ("G-rekening") in the name of Contractor or remit them directly to the appropriate implementing body and/or the Tax Collector.
